Is your child safe in the car?

Almost 80% of children's car seats are **NOT** fitted correctly - which puts your child at risk when traveling any distance.

The Road Safety Team are holding a **FREE** event, where we will check your seats and correct any problems we find.

The team will also give advice on the new law changes on travelling with children in the car.

**Come and see us to make sure your children are
as safe as possible at:**
