Picking the right bike to suit you can be a tricky task - whether you want to ride to work, get fit or for fun, a bicycle is the perfect tool to do that. But there are a confusingly huge and growing number of different types to choose from.

So if you are asking yourself **"which bike should I buy?"** then attend our session to learn more about Bikes:

- different ranges, from mountain, hybrid, road and touring bikes
- frame sizes and adjustments
- get an understanding of the gears/speed
- brakes - various types
- accessories - pannier rack, bike locks, helmet etc
- planning you cycle journey
- bike check
- information on repairs and service and more...

**It will help you decide on
the right bike for you!**
